

COLLEGE DISCOVERY PROGRAM

TODAY'S DISCUSSION

- College Discovery's History
- CD is developed at many college in New York
- Benefit as College Discovery Student
- Peer Leadership Program

The College Discovery (CD) Program has been a part of the City University since 1964 when it was established by February 1964 resolution of the CUNY Board of Trustees. The program began as a five-year experiment, which sought to demonstrate that with the proper supportive services, students who were being excluded from the University because of existing admissions criteria could attain a college degree. In 1969, the Program was extended beyond its experimental phase and became a permanent University vehicle in the community colleges for developing college potential among disadvantaged students. The success of College Discovery is reflected in the performance of its students. Retention and graduation rates consistently exceed those of regularly admitted students.
